

**Project Number:** 051NRMO - 14

**Project Start Date:** 1/1/2007

**Project Completion Date:** 31/03/2009

## Project Description

Management for biodiversity conservation fundamentally involves preventing the loss of biodiversity by managing biophysical processes. The source of biophysical threats usually stems from some change imposed by human intervention in the landscape. This project will assist to increase capacity for biodiversity conservation within the NACC community and therefore stakeholders will make informed management decisions and have the knowledge and skills to implement landuse change. Through this change resource condition targets will be achieved.

**Delivery Organisation:** Department of Environment and Conservation

**Total IP2 Funding:** \$211,776
