Project Description

Coordination and management of the Coastal Vulnerability and Risk Assessment Program, developed to assist local authorities in managing risks to coastal assets in the Geraldton-Greenough coastal zone. Key tasks of this project will be:

- To clarify the Program's vision, roles, commitments and understanding of the process in consultation with Program partners
- To identify further resources and potential stakeholders for the implementation of the Program;
- Ensure the frameworks and methodology used in the Program will provide information that is trusted, and will be useful for decision-making;
- Build Program partner's capacity to 1) successfully integrate research into the Program 2) integrate the Program's outcomes into planning and management policies and processes; and
- Manage the regular communications, meetings and negotiations to achieve these aims.
