

Name of Project	Applicant	Amount approved (ex GST)	Brief description	Location	Project start	Project completion (estimated)
Local Provenance Plant Nursery Propagation Benches	Drylands Foundation	\$6,427.00	This project involves replacing and improving nursery infrastructure at Drylands Permaculture Farm, managed by the Drylands Foundation a not-for-profit environmental organisation and registered charity, Project works will significantly improve accessibility to nursery operations, the wellbeing of workers, students and volunteers, and the Foundation's capacity to enhance the effectiveness of propagation.	Geraldton	01/03/2016	31/03/2016
Bush Land Fire Education, Control and Management	Perenjori Farming Forward	\$2,530.00	This project involves providing fire education to younger farmers and international workers in rural industries to address knowledge gaps regarding personal safety and environmental outcomes regarding bushfire mitigation, management and control.	Perenjori	01/03/2015	31/03/2015
Community Revegetation Workshop at Eurardy Reserve	Bush Heritage Australia	\$6,600.00	This project comprises a two-day workshop at which local landholders, NGOs, scientists, Traditional Owners and the local community can learn about improved, best-practice revegetation techniques relevant to local conditions and participate in a site visit. The workshop will also comprise a working group of revegetation experts and Bush Heritage Australia staff who will develop a five-year restoration plan for Eurardy Reserve.	Eurardy Reserve	01/04/2016	31/12/2016
Moresby Range Conservation Park Flora Conservation Field Trip	Department of Parks and Wildlife	\$8,000.00	This project involves a field trip to the Moresby Range Conservation Park to support the Geraldton District Threatened Flora and Communities Recovery Team to participate in training and on ground activities, encourage more community action and gain improved ongoing flora conservation outcomes in the local area.	Moresby Range Conservation Park	01/07/2016	30/09/2016
Keeping the Line Green in sixteen	Northampton Botanic Line Inc.	\$1,300.00	This project involves restoration work along the Northampton Botanic Line, located on the site of the first Government railway in Western Australia, which opened	Northampton	01/04/2016	01/10/2016

			in 1879 and operated until 1957. Works will include minor upgrades to reticulation equipment and the acquisition of new plants to replace those lost throughout the year.			
Designing, planning and obtaining approvals for a House Mouse eradication program in the Rat Islands cluster, Houtman Abrolhos	Conservation Council WA	\$9,768.00	This project involves developing and field testing the House Mouse eradication plan with students at Durack TAFE who are engaged in ongoing Abrolhos weeding and habitat restoration projects. Associated training including lectures, labs and field activities will equip students with skills in island ecology and feral animal eradication, and build their capacity to carry out similar operations on the Abrolhos islands and elsewhere in the Northern Agricultural Region in the future.	Abrolhos islands	01/03/2016	30/09/2016
Mingenew goes native!	Mingenew Irwin Group	\$8,100.00	This project will showcase local native flora and encourage the community to increase native plant use by creating and displaying a native, water efficient garden in front of the new Mingenev Irwin Group Training Centre. Interpretive signage on the species selected and their biodiversity importance will be erected. A water tank will collect rainwater from the building to irrigate the gardens.	Mingenew	01/04/2016	01/12/2016
Protecting Mallee Box	Department of Parks and Wildlife	\$9,966.00	This project aims to protect a population of Mallee Box (<i>Eucalyptus cuprea</i>) from stock grazing and damage, by fencing off its habitat. This population is the largest known population of the species and occurs in small isolated patches of remnant vegetation in the middle of cleared paddocks.	Northampton	01/06/2016	31/09/2016
